Amendments to Prosecution of the Claims

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

Claim 1 (cancelled)

Claim 2 (currently amended): The locating device as recited in claim [[1]] 6, wherein the reference points are marked in a regular array.

Claim 3 (currently amended): The locating device as recited in claim [[1]] 6, wherein the sheet comprises plastic.

Claim 4 (currently amended): The locating device as recited in claim [[1]] 6, wherein the sheet comprises polyester.

Claim 5 (original): The locating device as recited in claim 4, wherein the sheet comprises polyethylene terephthalate.

Claim 6 (currently amended): ~~The~~ locating device ~~as recited in claim 4~~ configured for measuring distances between dots of a light guide plate, the locating device comprising a sheet having a plurality of reference points marked thereon, the plurality of reference points being configured for locating of the dots during measuring, wherein a distribution density of the reference points is lower than a distribution of the dots.

Reply to Office Action of August 23, 2006

Claim 7 (currently amended): The locating device as recited in claim [[1]] 6, wherein the reference points are colored dots.

Claim 8 (currently amended): The locating device as recited in claim [[1]] 6, wherein the reference points are marked with numbers.

Claim 9 (previously presented): A method for using a locating device for measuring distances between dots of a light guide plate, comprising the steps of:

providing the locating device having a plurality of reference points marked thereon, the plurality of reference points being configured for locating of the dots;

attaching the locating device to a surface of the light guide plate that is opposite to the dots; and

gauging distances between the dots using a measuring instrument.

Claim 10 (original): The method as recited in claim 9, wherein the locating device comprises a sheet having the reference points marked in a regular array.

Claim 11 (original): The method as recited in claim 10, wherein the sheet comprises plastic.

Claim 12 (original): The method as recited in claim 10, wherein the sheet comprises polyester.

Appl. No. 10/726,043
Amdt. Dated September 22, 2006
Reply to Office Action of August 23, 2006

Claim 13 (original): The method as recited in claim 12, wherein the sheet comprises polyethylene terephthalate.

Claim 14 (original): The method as recited in claim 9, wherein a distribution density of the reference points is lower than a distribution density of the dots.

Claim 15 (original): The method as recited in claim 9, wherein the reference points are colored dots.

Claim 16 (original): The method as recited in claim 9, wherein the reference points are marked with numbers.

Claim 17 (original): The method as recited in claim 9, wherein the measuring instrument is a microscope.

Claims 18-19 (cancelled)
